Press release for immediate release

Second edition of L'Exposition de poche!

Originally from Issy-Les-Moulineaux, La NaV is celebrating its 16th birthday. This art association promotes performing and visual artists. Defending them and presenting their work at a time when culture is undermined remains its priority. As a result, La Nacelle Art Vivant is happy to announce **the second edition of L'Exposition de Poche in Bordeaux!** (following health measures)

This unique approach, created by **Marie Grommier**, aims to showcase the work of an artist in an intimate and friendly environment.

The visitors are encouraged to look, to take the time to understand and to soak in the paintings on display. The path invites the public on the step by step journey that leads to the creation of **Sébastien Nadin's** work.

L'Exposition de poche intends to exhibit around forty paintings from different times. In order for this 2nd edition to be a continuation to the first one, La NaV has put together brand new paintings made in Burgundy!

Opening on Sunday, May 9 2021 from 3 PM to 6:45 PM upon appointment

Opening to be held according to government orders
