### Second edition of L'Exposition de poche | Press release

From May 6 to July 20 2021

Originally from Issy-Les-Moulineaux, La NaV is celebrating its 16th birthday. This art association promotes performing and visual artists. Defending them and presenting their work at a time when culture is undermined remains a priority for La NaV. As a result, La Nacelle Art Vivant is happy to announce **the second edition of L'Exposition de Poche in Bordeaux !** (following health measures)

This concept, created by artistic director **Marie Grommier**, aims to showcase the work of an artist in an intimate atmosphere in order for the visitors to feel comfortable and, therefore, allow them to take their time to familiarize themselves with **Sébastien Nadin's** paintings. Moreover, thanks to a collaboration with the Jock Boutique, the visitors will also benefit from delicious breaks during which we will be able to exchange on the exhibition but also about Art in general.

For this second edition of **L'Exposition de poche “Paintings and collages”**, La NaV has worked with **Sébastien Nadin** to present you about forty paintings, including brand new ones that were made in Burgundy ! This will be the occasion for you to discover various periods of his artistic production.

**Opening on Thursday, May 6 2021 from 3 PM to 6:45 PM  
upon appointment**
